WDNR Cert # 241329000

Report Date: Monday, March 24, 2014

The following are the analytical results for the sample(s) received by Laboratory Services on 3/21/14 :

Sample Description: Water Sample - Melted Snow Collected in February
Sample ID: AD80606 Work Order #:
Sample Collector: BRAUNSCHWIEG Sample Collection Date: 3/20/14 Collection Time: 15:30

<u>Parameter</u>	<u>Result</u>	<u>Analysis Date</u>	<u>Analyst</u>
Microscopic Examination	<p>Sample was melted snow collected by the customer with the solid fraction examined using a stereomicroscope and polarized light microscopy.</p> <p>A portion of the mixed sample was filtered through a 0.45 micron filter, dried and examined. Approximately 30% of the solid material was identified as coal. Also present was a large amount of sand, some dirt, a moderate amount of cellulose (live plant material), some pollen grains, sap and a few bug parts.</p> <p>No evidence of flyash or bottom ash was observed.</p>	3/21/14	LB
